- c. Apartments: Maintenance of apartment interiors, including windows and screens is the responsibility of the respective owners and /or occupants. Maintenance includes securing doors and windows as is deemed appropriate by the occupant.

II. OCCUPANCY

No apartment owner or occupant shall erect or place in the project any building or structure including fences, and walls, nor make any additions or alterations to any common elements of the project, nor place or maintain thereon any signs, posters or bills without the prior written approval of the board, and when required, by the majority of the apartment owners (or such larger percentage required by law and/or the by-laws) including all owners of apartments thereby directly affected.

- h. **EXEMPTIONS FOR HANDICAPPED PERSONS.** Notwithstanding anything to the contrary contained herein, handicapped residents shall: (1) be permitted to make reasonable modifications to their apartments and/or the common elements, at their expense (including without limitation the cost of obtaining any bonds required by the Declaration or By-Laws), if such modifications are necessary to enable them to use and enjoy their apartments and/or the common elements, as the case may be; and (2) be allowed reasonable exemptions from the House rules, when necessary to enable them to use and enjoy their apartments and/or the common elements, provided that any handicapped resident desiring to make such modifications or desiring such an exemption shall so request, in writing. That request shall set forth, with specificity and in detail, the nature of the request and the reason that the requesting party needs to make such modification or to be granted such an exemption. The Board of Directors shall not unreasonably withhold or delay its consent to such request, and any such request shall be deemed to be granted if not denied in writing, within forty-five (45) days of the Board's receipt thereof or of any additional information reasonably required by the board in order to consider such a request, whichever shall last occur.

This exception shall also apply to certified guide dogs, signal dogs, or other animals depended upon by handicapped guests of occupants, If such an animal causes a nuisance or unreasonable disturbance, the handicapped owner thereof will be given an opportunity to rectify the problem by measures which fall short of ejection of the animal from the project. Ejection of such animal shall be required only if less drastic alternatives prove unsuccessful or would be futile. If the Board determines

that such an animal must be ejected, the handicapped owner thereof will be allowed a reasonable period of time to attempt to obtain a suitable substitute animal, and the animal in question will be permitted to remain at the project during that time, provided that the problem is controlled to a sufficient degree that the continued presence of the animal during that time does not constitute an unreasonable imposition upon other occupants.
